Very Kinky Cards

Rules

Set-up

Sit in a circle with all your kinky friends.
Each player draws 10 white cards.

Game Play

The person who came most recently is Card Daddy.
The game is played in rounds. Each round:

- Card Daddy draws a red prompt card and reads it out loud.
- All other players give their best white answer card to Card Daddy face down.
- Card Daddy:
 - Shuffles the cards
 - Re-reads the prompt and each answer out loud
 - Chooses the **best card**; and
 - Chooses the **worst card**.
- Winner must say *"Thank you, Card Daddy"* as they accept their victory and take the red card.
- Loser must avoid eye contact and say *"I'm sorry, Card Daddy."* Additional punishments are optional and subject to house rules.
- The winner of the round is now Card Daddy.
- All players draw back up to 10 cards.

Winning the Game

The first person to win six rounds and obtain six red cards is the final Card Daddy. Submit to their power.

Break the Rules

That's right, brats. It's your time to shine. Remix the game rules however you'd like. Rather not have a Card Daddy and instead have *everyone* vote on the best card? Very democratic of you. Want to play until someone wins 10 rounds instead of 6? We admire your stamina. Want to make some spicy bets? Like winner gets spanked by all the other players? Sounds like our kind of remix.
